Pearl's Mission...

We are dedicated to achieving the balance between homely properties, great locations and the best level of care for you, with your privacy and dignity our priority.

We are monitoring and constantly updating our service and facilities. By introducing national standards in advance of Government schedules and providing up to date training, we hope to raise the bar in home care and build further confidence in our company.

Although not purpose built, all the rooms at Tudor Lodge are spacious with some rooms En-Suite – in addition we have listened to our residents and have some unique and innovative facilities planned such as free phone calls and internet access.

Tudor Lodge will focus on 'Recovery' with associated educational input seeking to optimise individual awareness and understanding of their Mental Health and General well being.

Tudor Lodge will strive to keep the individual 'Well' after the 'Recovery' process.

The best of both worlds!

Philosophy of Care:

1. See each resident as an individual and will endeavour to meet residents' physical, social, emotional and spiritual needs.
2. Recognise and actively promote each individual's right to privacy and maintenance of dignity, and enable them to make informed choices regarding the planning, implementation and effectiveness of their residential care.
3. Motivate and encourage individuals in need of care to achieve optimum levels of health, independence, self confidence and self esteem, involving family and friends, the community and relevant Healthcare professionals
4. Recognise that ageing is a natural and normal process and that it does not restrict or change a person's right to expect to live life to the fullest
5. See all individuals as unique people and as such have the right to participate in all decisions that may affect their welfare and future
6. Ensure that all staff receives a thorough induction and continuous training. This enables us to deliver care that is of a consistently high standard to maintain a good quality of life for the residents in our care
7. We are open and honest with each other, our service users, relatives, advocates and significant others. This enables us to acknowledge any weaknesses and learn lessons from experiences. We take any complaint seriously and ensure we reply to the same with openness and honesty.

Taking part in activities is doing something rather than doing nothing. An activity can be as commonplace as a friendly chat, a family reminiscence, doing a crossword together, playing cards or looking through a newspaper. These occasions are not to be dismissed or undervalued: they are a valuable link with real life.

Regular theme activities play a large part in the life of Tudor Lodge for those wishing to join in and are enthusiastically entered into by both residents and staff. See our wide range of photographs displayed at the Home of different theme nights and Garden party's.

For the comfort of all our residents please note smoking is only allowed in our designated smoke lounge.
