Testimonials

"I know that your team do their utmost for everyone with little appreciation. But we value you and others as very special people caring for very special people. Thank you from the bottom of my/our hearts."

Family of a person we support

"Since my sister came to Capricorn Cottage just before the home went into lockdown, the staff have excelled in their care of her. In the circumstances, their level of care and attention to detail has been amazing."

Mother of a person we support

Capricorn Cottage

Residential and respite service supporting
individuals with learning disabilities

Where care comes first

— Welcome to Capricorn Cottage —

Capricorn Cottage comprises 28 bedrooms, including 12 en-suites rooms, for people with Learning Disabilities, located in the beautiful countryside on the outskirts of Fleet in Lincolnshire.

We strive to bring the highest standard of care to enhance the quality of people's lives. We are committed to delivering person-centred, flexible support that promotes choice, dignity, respect and control.

Our staff are trained and passionate about responding to your individual needs. They are experienced in enabling you to reach your aspirations and goals as well as developing and maintaining your life skills.

— Residential —

Capricorn Cottage offers a high-quality residential care service with a friendly, caring atmosphere and a highly skilled team that is responsive to your changing needs. The team will support, encourage, and empower you to reach your full potential, to make informed choices within all aspects of your lives.

We offer innovative person-centred support and care to meet your identified needs.

— Respite —

We offer a unique respite service within the area, as we are not a traditional respite service provider. We work with people with a wide range of needs, from a variety of different backgrounds. Being responsive to finding innovative support, we provide care solutions specifically tailored to the individual.

The team are committed to working with people in a person-centred approach to enhance their quality of life while finding opportunities for people to maintain and develop new skills, based solely on how they choose to live their lives.

We are not a 'one size fits all' respite service, working proactively with people. We can adapt and change the support required at every stage of a person's stay with us.
