## Testimonials

*“All the staff and management have been absolutely fantastic with the care for my husband. They have gone above and beyond with the care, dignity, and respect for him. Not only have they looked after my husband but they have looked after me and supported me through an incredibly difficult period. I would highly recommend Kimberley Care Village.”*

Family of a resident

*“Extremely lovely care home. Staff are friendly, empathic, and caring. The home is clean and welcoming. The manager cares for residents and their family. Couldn't wish for a nicer place for mum to be.”*

Kimberley Care Village

*Where care comes first*

## *Welcome to Kimberley Care Village*

Kimberley Care Village is a 65-bed residential home, providing a variety of services from respite care and short stays to longer term placements and end of life care. We welcome both Private and Local Authority funding.

Kimberley has a warm friendly atmosphere, and whilst we take our responsibility for delivery of personal care seriously, providing a clean and well-maintained care home, we aim to provide a happy environment hoping to have as much fun with as much laughter and happiness as we can generate for all.

## *Residential Service*

Kimberley boasts four wings, home to older people and individuals with dementia.

Our dedicated Dementia wings promote a safe and stimulating environment for people with dementia, enabling them to experience a full and active life.

Our Dementia service has a knowledgeable team striving to get the care delivery for our residents. Each care package is tailor made to their wishes, wants and desires wherever possible, and we always look to gain information to provide us with a well-rounded picture of the individual, seeking advice from family members on likes dislikes and general interests to promote choice and independence.

## *Respite Service*

We can offer placements to people who have a physical disability and individuals who require reablement. We aim to get you home with a package of domiciliary support if you choose, with staff who know you and understand your specific requirements.
